

## VI. Enforcement

The figure consists of several horizontal layers of data. The top layer is a dark purple band with a repeating pattern of red and blue shapes. Below it is a light blue band with a grid of colored squares (red, green, blue, yellow). The middle section contains a large area of solid light blue, with a grid of small colored rectangles (black, white, grey) overlaid. To the left of this grid, there is a vertical column of small black and white icons. The bottom layer is a dark blue band with a grid of small colored rectangles. The entire image has a high-contrast, digital aesthetic.
